LIGHTING - SMD LED WIRELESS CHARGE TWIN PACK

One of SP's latest innovative breakthroughs is the incorporation of new wireless charging technology into the work light platform. No longer do you have to plug your work light into a charger over night. The new pad style charger allows you to simply place the work light on the charging pad and the charging process instantly begins. Magnetic zones on the front of the charging pads firmly hold the work lights in place at any angle, while the heavy duty rear magnets allow for the charging pad to be instantly mounted onto any magnetic surface such as a steel tool box or work top.

ACCURATE DIAGNOSTIC TOOLS FOR ANY VEHICLEVIDEOSCOPE

The SP Smart Tool is a multi-function Android tablet based scan tool with an easy to use and understand user interface, capable of running sophisticated whole system diagnosis on more than 100 car brands from Europe, America, Asia and China and offers support to more than 20 common maintenance special functions, CAN FD, DoIP and various diagnosis protocols. Combining multiple professional tools into one, this SP Smart Tool is an essential tool for any modern professional workshop. The built-in printer allows technicians to print out hard copies of test reports on the go and the massive 64GB of on-board storage allows users to save test reports for later viewing and comparison.
